

# CONCENTRATION

walk				
			walk	

Number of Players: 2 to 4

Materials: Dolch Word Cards (double set of word cards)

Object: Match the words

Directions: The game is played in the same way as the commercial Concentration game. The cards are turned face down and arranged on a grid.

Player 1 turns over two cards and lays them back in their places so that all can see them, and says the words. If the words are not known, say them for the child. Have the child repeat the words. If the words match, the child removes them and continues playing by turning over two more cards. If the words do not match, the turn is over and the play goes to the next player.

The game is over when all of the words have been matched. The winner is the player with the most pairs of words.
